WORK EXPERIENCE

Senior Front End Developer at LeaseFriendly | Halifax, NS

Jan 2024 – Feb 2024

- Spearheaded the initiation and establishment of the front-end codebase, setting the foundation for efficient and scalable development.
- Implemented robust linting and code quality standards, ensuring adherence to best practices.
- Orchestrated the integration of Husky for seamless Git hook, enhancing version control processes.
- Pioneered the development of reusable components within Storybook, facilitating rapid prototyping and iterative design improvements.

SAP ABAP Developer at IBM | Halifax, NS

September 2021 — January 2024

- Developed, optimized, and maintained ABAP code for mission-critical SAP solutions for the Department of National Defense, ensuring seamless operations and data security.
- Specialized in integrating SAP modules with external systems, streamlining processes, and improving data accuracy for large-scale military operations, including supply chain management, personnel administration, and asset tracking.
- Collaborated with cross-functional teams, including project managers, business analysts, and security experts, to translate complex military requirements into robust SAP solutions.

Software Developer at Sinno Technologies Limited | Remote

June 2016 — Current

- Extensive experience in developing complex applications for enterprise clients, meeting strict requirements, and delivering projects on time and within budget.

- Proven ability to analyze, optimize, and refactor existing codebases to enhance performance, maintainability, and scalability.
- Demonstrated success in collaborating with cross-functional teams, fostering effective communication, and driving successful project outcomes.
- Strong problem-solving and troubleshooting skills, with the ability to quickly identify and resolve issues throughout the development lifecycle.
